IT IS THE GREATEST ECONOMIZER IN THE WORLD.

With it you can at odd times, Summer or Winter, evaporate enough waste fruit, etc., for family use, and enough to sell or exchange for all or the greater part of your groceries, and in fact household expenses.

As a Money-Maker for Rural People it is Without a Rival.

Has it ever occurred to you that, with a little labor, waste apples, berries and vegetables can be quickly evaporated, and are thus worth a pound for pound for flour, sugar, coffee, butter, rice, oil, etc.?

To the Ladies of the Household in Town or Country it is a Little Gold Mine.

No labor you can perform for cash returns pays as well as that of converting waste fruit into evaporated stock. These products are among the highest-priced articles in food products. Evaporated peaches, cherries and raspberries, 20 to 25 cents per pound; apples, pears, blackberries, etc., 10 to 15 cents; all salable to or may be exchanged with your grocer for anything he sells.

Recall the Waste of Fresh Fruit on the Farm or Town Lot for Seasons Past.

This waste fresh fruit, with a little labor added, represents just about one-tenth as many pounds or bushels of evaporated fruit, and is worth a pound for pound for flour, sugar, coffee, butter, etc. Now, any of these products wasted in or about the kitchen, even to the one hundredth extent, might have given occasion before this for silverware. At any rate, no other business than farming now allows such large waste, or could be long sustained.

Every household needs silverware. In our grand-father's days, owing to lack of modern improved machinery, silverware was all sterling or solid silver, and only the rich could afford it. Now, by the introduction of machinery of Yankee invention, plated ware has taken the place of the solid, and is in universal use. Still, and houses continue to have the plated ware of Rogers above all others, and have made the name famous for the past 35 years. No other brand is equal to it, and the "Rogers" name is always warranted. Our readers are warned against others cutting themselves Rogers, who make an inferior quality of plated ware with the intent to deceive buyers. This stock we guarantee.
